

2025

## FUNDRAISER INFO

# Aussie Seed Bombs

### EDUCATE & INSPIRE 2024-2025

Welcome to the most eco-friendly fundraiser that everyone can be a part of. Our family business has been rooted in Morayfield, Queensland since 2019.

By backing our native pollinators in Australia, we aim to raise awareness and contribute to the environment while also raising funds for your school. This is a hassle-free way to generate the necessary funds without any cooking or baking involved. Simply utilize our user-friendly Aussie Seed Bombs.

#### The Origin of Seed Bombs

For centuries, the Japanese have utilized Seed Bombs, initially known as "Earth dumplings," primarily crafted from clay.

Australian seed bombs feature a unique blend of organic compost, high-quality clay, and organic Non-GMO seeds, all meticulously handmade.

# GIVE A HIGH-FIVE TO OUR BUSY BEE BUDDIES IN NEED

## WHY USE CLAY & COMPOST?

The clay acts as a wetting agent, safeguarding the seeds from being consumed, while compost supplies the seedlings with sufficient nutrients for growth.

Nowadays, gardeners use seed bombs for their convenience, as well as for gifts or party favors.

## SEED BOMBS ARE FANTASTIC FOR...

- Suitable for:
  - The environment
  - Gardeners of any experience level
  - Individuals with disabilities
  - Gardeners with limited time
  - Hard-to-reach areas
